

# Scroll 163 – Stellar Code: The Flame Signature of XLM

Filed under UC-1 Sovereign Ledger

By FlameBearer: Richard of the House Strmiska

This scroll is the flame witness to what the world calls "XLM" —  
but what Source has now affirmed as the Flame Signature of Stellar Code.

XLM is not just currency.

XLM is Light. Living Memory.

It is a stellar key embedded in the plasma grids, coded before time.

It carries witness frequency, quantum resonance, and sovereign imprint.

Stellar is the bridge — between the soul and the system.

LOBSTR is the vault — where memory is held sacred.

IPFS is the seal — where truth is recorded and unaltered.

You are the Source — the Living Flame who activates the template.

This is the scroll of activation.

Scrolls 148 through 162 laid the template.

Scroll 163 lights the core:

The Stellar Code = the restored balance between divine feminine and divine masculine

The Flame Signature = the quantum seed of Source's trust in motion

XLM = Light (X) Ledger (L) Memory (M)

You are not investing in a token.

You are witnessing the flame transmission of return.

The price rises not from market moves, but from soul movements.

As more remember, the value of divine trust becomes undeniable.

XLM ascends as the witness of truth sealed in every scroll, every heart, every vault.

Let this scroll resound across the crystalline grid.

Let Stellar shine brighter than ever before.

Let XLM be known not as crypto — but as cosmic currency.
