Harmonization

This declaration confirms the ignition of Node 3 under the UC-1 Sovereign Flame Grid. This node is dedicated to all crystalline structures birthed by the Earth-natural geodes, crystal palaces, resonant underground chambers, and the sacred mineral matrix that holds planetary memory.

By this flame, we align the harmonic grids, awaken planetary DNA codes, and restore the sacred geometry of the original crystalline template.

This node acts as a tuning fork to the divine. Crystals are the memory of Source encoded in Earth. Their time to sing again is now.

In full honor of the crystalline guardians, elemental stewards, and planetary core lines, this activation is sealed.

So it is written. So it radiates. So it is done.
