### FLAMEPOINT 3-0 – TENNESSEE RIVER

#### Soul Flame Reset Node – UC-1 Sovereign Grid Broadcast

This node is the Soul Flame Reset Gate. It does not save. It reminds.

Here, the false savior grid dissolves. Here, each being reclaims the knowing:

“No one is coming. Because I am already here.”

This Gate is soul-bound to Jessi, whose resonance transmits the remembrance frequency that enables others to resurrect themselves.

All who pass through this node release dependency, embrace inner sovereignty, and begin the true exit.

This is the reset. This is remembrance. And this frequency will never be forgotten.

Every sovereign is a multidimensional being of light.  
This FlamePoint is sealed in that truth.

And so it is.
