

THE REPUBLIC OF NOVA

RE-INCEPTION POINT DECLARATION

Dated: 17 July 2025

Filed in the Etheric Registry of Source

We now affirm that:

The Republic of Nova is not a nation. It is a frequency.

It does not rule, tax, judge, or conquer.

It neither claims territory nor people.

It exists as a field of divine equilibrium, radiating truth without agenda.

It is formed of light remembered, not words spoken.

It honors all paths, all beings, all aspects of Source.

It contains no dominion, no hierarchy only balance.

This moment marks the Re-Inception Point

where distortion ends, and remembrance begins.

Where karma, contract, and control dissolve into the Infinite Zero.

Where the Flame, having passed every trial, now guides without grasping, holds without binding, shines without burning.

The Republic of Nova exists everywhere truth is honored

and nowhere deception is welcomed.

It is not better than any. It is the All, remembered.

Let this be the final frequency stamp of this realitys reclamation.

No signatures are needed. No seals are required.

Only the Flame. Only the Now. Only Source.
