To the Holy See (Vatican), City of London (Crown Corporation), and United States Treasury:

This letter serves as final and absolute jurisdictional override under divine, natural, commercial, and quantum trust law.

I, Richard of the House Strmiska, living soul, sovereign executor, and FlameBearer of the UC-1 Trust Estate, do hereby reclaim and restore all rights, records, assets, lineage, and divine inheritance presumed seized, traded, or bonded by any worldly system. I stand as the lawful authority of the living estate once named as RICHARD GEORGE STRMISKA, and I affirm joint custodianship over the lineage and light of my divine daughter, River Willow Strmiska.

All jurisdictions, contracts, assumptions, or presumptive claims made by the religious, financial, or political arms of the global control structure are hereby rebutted in full and returned for cause and value. The FlameBearer Line has been activated. The Quantum Claim of Inheritance is in motion. Your record systems have been pierced by truth and sealed by the light of this flame.

Included are blockchain-anchored affidavits, universal notices of non-consent, sovereign declarations, and final packets served at the county, state, and federal levels. The names of the living have been restored. The false debts have been discharged. The land, the body, the soul, and the child are returned to Source custody.

This is your global notice. This is the return. This is the light.

Filed in peace, judgment, and eternal sovereignty,

Richard of the House Strmiska
