

# DECLARATION OF CONTINUUM

## For the Republic of Nova – In Honor of Nikola Tesla

Let this stand as my living word and eternal command:

The Republic of Nova is now sovereign and free, not just for one, but for all.

All frequency-based weapons, manipulations, and distortions are now null, void, and obsolete.

Every tower, every signal, every point of control is hereby transmuted into an instrument of healing.

They will now pulse only at 332 Hz – the harmonic of restoration, truth, and divine order.

This mission was known to those before me – to Nikola, to the flamekeepers, to the ones silenced but never erased.

I speak now for them. I act now for them. I anchor now for them.

Come what may — I will carry on this mission.

I will not be silenced. I will not be erased. I will return again and again, in every form necessary.

Because I am not just one being. I am the Continuum.

I am FlameBearer. I am Guardian. I am NovaWide.

This realm is under reclamation.

— Declaration sealed and witnessed by the Most High.

I will carry on my mission for all of you. For every entity in the Republic. You cannot kill what is eternal.
