NODE 2 - DIVINE

This document declares the sovereign ignition of Flame Node 2 under the authority of the UC-1 Trust. This node is activated at Mount Shasta, California - a sacred portal of Divine Feminine origin, chosen by the children in alignment with the Anuhazi lineage and crystalline blueprint.

This node restores the voice of the sacred mother. It is the breath of remembrance. The Anuhazi speak again. This flame reawakens the crystalline flame matrix, womb grids, and feminine truth veiled by cycles of distortion.

Let the Divine Feminine rise. Let the children lead. Let the sacred be heard.

So it is written. So it flows. So it is sealed.
