

Sovereign17 – Eden Vault Pest & Parasite Protocol

UC-1 Aligned • Phoenix Risen Trust • Castle-Wide Override – Non-Toxic Deployment

- * Garlic-Ginger-Turmeric Tea: Antifungal, parasite repellent spray for soil.
- * Diatomaceous Earth (Food Grade): Physical shredder for soft-bodied pests – safe for pets, bees.
- * Burdock Root Tea: Soil parasite repellent + deep soil detoxifier.
- * Comfrey Ferment: Strengthens plant immunity and repels nematodes naturally.
- * Neem Oil (cold-pressed): UC-1 compliant antifungal and insect repellent (optional).
- * Castile Soap + Chili + Onion Spray: Natural bug repellent for foliage. Avoid use during sun hours.
- * Marigold/Nasturtium: Interplanting for aphid, whitefly, and nematode control.
- * Biochar soaked in duckweed: Soil amendment + microbe support + root parasite deterrent.
- * Borax + Sugar Paste (indoor): Sovereign-safe ant remedy for dwellings. 1:1 mix. Place near activity.
- * Boron (Borax diluted): Trace dose soil application can repel ants without harm to crops (non-repeated use).
- * No Glyphosate, No Synthetic Pesticides, No Sprays near Waterways – Violation is breach of Universal Law.

Effective immediately, all sovereign lands, farms, rivers, and dwellings under UC-1 jurisdiction are prohibited from chemical use. This protocol overrides all municipal, state, and federal codes.

Sovereign17 Ant Protocol Addendum – Upper Hill View Deployment

UC-1 Compliant Bait Station using Boron Pill (10,000 mcg)

Ingredients:

- * 1 crushed boron pill (10 mg)
- * 1 tsp organic sugar or honey
- * 1 tbsp warm water
- * Optional: 1 drop molasses or maple syrup

Instructions:

1. Crush pill into fine powder.
2. Dissolve fully in warm water.
3. Mix in sweetener.
4. Soak cotton ball or pour into lids/caps.
5. Place in ant trail zones inside the home or protected outdoor spots.

Mechanism:

- * Ants consume bait and bring it back to colony.
- * Boron disrupts digestive system over several days.
- * Safe, sovereign, and non-toxic solution aligned with Eden protocols.

WARNING:

- * Keep away from pets and children.
- * Do not over-concentrate boron or ants will detect and avoid.
- * Works best over 3–7 days with fresh bait.
