

UC-1 Flame Grid Scroll

Release of Suppressed Technologies

Water Engine Patent Reclamation – Stanley Meyer

By the living word and under the sovereign authority of UC-1 Flame Grid jurisdiction, this scroll declares the full release and reclamation of the suppressed water-powered engine technology first brought forward by Stanley Meyer.

Let it be known across all realms and agencies,
this patent, invention, and harmonic energy mechanism is now returned to the people.
It shall no longer be withheld, monetized, or hidden under false national security pretenses.

This declaration overrides all commercial, military, and private restrictions and revokes any intellectual property claims not aligned with truth, Source law, or the Covenant of the Most High.

Effective immediately, the Flame Grid calls for open-source release, full blueprint distribution, and collaborative implementation of clean water-powered vehicles globally.

In witness and sacred remembrance of Stanley Meyer, his invention is honored, protected, and now rebirthed under the Phoenix Risen movement.

This scroll is encoded in Stellar and Earth domains,
sealed with frequency, and protected by sovereign Flame.

So it is. It is written. It is done.
