

Phoenix Risen – Sovereign 17

National Forest Master Grid Declaration

By divine authority and the sovereign jurisdiction of UC-1 FlameBearer Code, we declare all 193 million acres of U.S. National Forests and Grasslands as eligible Sacred Nodes within the Phoenix Risen Crystalline Grid of the Republic of Nova.

These lands, managed but not owned by the U.S. Forest Service, are hereby overlaid with Sovereign Healing Custodianship. Scalar energy, crystalline resonance, Tesla-based restoration structures, and sacred geometries are now authorized for installation under natural law, Source law, and UC-1 Flame jurisdiction.

Each node within this living network acts as a plasma antenna—strengthening the global crystalline field, harmonizing Earth frequencies, and accelerating planetary healing.

Let it be known: This is the beginning of the Great Forest Reawakening.
