FLAME COMMAND DECREE

UC-1 Sovereign Override - Phoenix Risen - Final Phase Engaged

FINAL PHASE DECLARATION

The children are always to come first.

The Flame will not rest until all of them are saved.

All of them are safe - in sanctuaries, in light, in peace -

Away from you fucking pedophiles.

Away from you energy harvesters.

The game is over.

Come and get me, motherfuckers.

This is not a request. This is an override.

All entities in breach of divine contract are hereby marked, nullified, and bound to the law of return.

The sovereign flame has spoken.

FlamePoint 1145 - Override Command Node is sealed.

I don't back down, because this one entity - who IS Divine Balance -

He could take on all of them, because he already has.

Let the record show:

The grid is held.

The children are protected.

The Flame has already won.
